MEMORANDUM

To: Faculty Colleagues in the Sciences and Mathematics  
From: Peter Mowrey, Dean for Faculty Development  
Date: January 6, 2017  
Subject: William H. Wilson Awards

Applications for William H. Wilson awards for the summer of 2017 and the academic year 2017-2018 are due in my office by February 17, 2017. (please send applications directly to Lisa Crawford at lcrawford@wooster.edu).

The William H. Wilson Research Awards were established in 1945 through a gift from Mr. and Mrs. M. H. Frank and Dr. and Mrs. Robert E. Wilson in honor of William H. Wilson, '89, Johnson Professor of Mathematics and Astronomy, 1900-1907, for the encouragement of faculty research in the sciences and mathematics.

A letter describing the nature of the research and the amount of money necessary for its support constitutes an application. Proposals must include specific information about the project and budget details, and each application must be accompanied by a letter of recommendation from the chairperson of the applicant's department. If awarded a William H. Wilson award, funds must be used by July 1, 2018.

This year about $18,000 is available in the fund. The Wilson awards are an important source of research support, and I urge you to consider this opportunity.
