Why did you choose your program and location in particular?
I wanted to study urban design in a place that had a strong culture of design.

How did your experience fit into your academic major and your Wooster education?
I pursued something different than what I am studying at Wooster. Design is something I am considering to integrate into my IS and my post-Wooster education.

How did the courses you took compare to courses at Wooster?
I liked how my classes were taught by practicing architects and designers, rather than professional teachers. I also enjoyed how we traveled around Scandinavia to experience what we were learning in the classroom.

What specific advice would you give to other students preparing for this program and for living in your host country, or studying off-campus in general?
Don’t be afraid to make adventurous choices when deciding your living situation; always choose to integrate yourself with the locals.

Danish Institute for Study Abroad - Copenhagen
A specialized Danish institution offering study abroad programs in English for primarily American university students. Courses focus on experiential learning. Various living arrangements with Danish roommates or host families.

For more information please stop by the Office of Off-Campus Studies in Babcock Hall, 103 or have a look at www.wooster.edu/Academics/Off-Campus-Study.
