

PSCI 246: Peace Studies – Dr. Kille (Fall 2007)
Group Participation Evaluations

Since I am unable to keep track of what goes on much of the time in the groups, I would appreciate your feedback on how well different members of the group participated in preparing for the group presentations. These evaluations are completely anonymous and should be completed at home and then returned to me the class after your group presents.

For each student, including yourself, provide a letter grade based on how well you thought that they participated in the group. You can give “+” or “-” if you want, i.e. A- or C+. Please explain your grade choice with written comments.
