The Faculty Handbook gathers together essential information for members of the faculty. Apart from The Statute of Instruction (Section 1), it serves primarily as a supplement to the College Catalogue and does not attempt to duplicate information provided there—faculty are directed to the latest edition of the Catalogue as a first point of reference. Other important sources of information for the faculty include The Scot’s Key, Guide to Graduate Scholarships and Fellowships, and the Handbook of Selected College Policies.

The Faculty Handbook is publicly available on the Academic Affairs website, and reflects annual updates.
